Open Letter

The Honourable Kathleen Wynne,
Premier of Ontario
Room 281, Main Legislative Building,
Queen's Park,
Toronto, ON M7A 1A1

Dear Premier Wynne,

As presented, the 2016 Ontario Budget contains a plan to have many seniors pay substantially more for prescription drugs, based on their incomes. In addition, the government is planning to increase the co-payment for filling prescriptions. Under this plan, seniors with incomes over \$19,300 for a single person or \$32,300 for a couple, will have to pay nearly double the deductible before their drugs are covered. Deductible costs will increase from \$100 to as much as \$170. In addition, all seniors, regardless of income, will see their co-payment rise when they go in to get prescriptions filled.

Premier, we are asking you to cancel the fee increases for seniors and uphold the principle of universality for our health care system. As Ontario pays down its deficit, the fundamental values that underlie our public health care programs should not be abandoned.

Universal publicly-funded health care is understood as a fundamental value in Canada. The idea that the wealthy and the poor share the same health services and therefore have a common interest in its quality and success, is cornerstone to our health system.

This is the foundational belief for our public health care system, supported unanimously by all political parties when the Canada Health Act was passed, and it is the foundational value upon which we are calling for an expansion of public health care in Canada to cover a national prescription medicine program for all Canadians. Ontario has, in many ways, led that call. We are asking you not to break now with the principles that underlie that vision.

Public health care is about taking care of one another. We pay through our taxes for care when we are of working age and healthy --and we share the cost across society -- so that the burden for care is not shouldered by the sick, the elderly and the dying. This is a point of pride for most of us.

Already seniors face mounting out-of-pocket costs for long-term care, respite and medical supplies. As local hospital services are closed in more and more towns, seniors face significant new costs for rehabilitation, lab tests, and travel costs. Unofficially, home care is already subject to means-testing, forcing families to shoulder ever more of the expense. When one adds to these existing user costs to the planned higher deductibles and co-payments for drugs, the burden for middle income seniors is becoming unbearable.

In fact, Premier, as you know, across Canada, the progressive public interest organizations that work on health care are advocating for the principles of the Canada Health Act not only to be safeguarded in hospitals and clinics, but also extended to cover home care and drugs in a bid to protect equity and reduce suffering as health care is reformed.

It is distressing to see the Ontario government moving in the opposite direction.

That our public services should enhance social cohesion and improve equity is a quintessentially *liberal* idea. Indeed, the universality and equity principles were written into the Canada Health Act under the Liberal government of Pierre Trudeau and Health Minister Monique Bégin. They have been upheld by governments of all stripes since. They should not be abandoned lightly.

Ontario already has a means-tested method to provide income for needed health care services. It is called the tax system. Through the rebuilding of a progressive tax system that asks the wealthy and corporations to pay their fair share, funding can be raised for needed care and services. Premier, there is no reason to increase user fees on people when they are elderly, sick, dying and least able to pay. Respectfully, we ask you to reconsider the policy direction of dismantling universality and subjecting more health care services to user fees at point of need.

Sincerely,

Derrell R. Dular, Managing Director **Alliance of Seniors & Older Canadians Network**

Roslyn Harris, Chair **Association of Jewish Seniors**
