## **Flemingdon Community Legal Services**

Flemingdon Community Legal Services is a general all-purpose clinic. We provide service to our clients in the traditional five areas of clinic law: summary intake; legal representation; community development; law reform; and public legal education. Community legal clinics are regulated by Legal Aid Ontario under the *Legal Aid Services Act*. Flemingdon services to the community are dependent on funding from LAO, on time restraints under legislation and regulations and on the availability of our caseworkers.
